

AVERY LEBENE KORTO

User Experience & Frontend Engineer

I'm a Frontend Engineer who loves turning ideas into smooth, polished web experiences. With 3+ years in the field, I work closely with design and product teams to build things that pair clean design to design with scalable maintainable code.

Experience

UX Engineer, Hubtel

June 2023 – Present · Accra, Ghana

- Translated high-fidelity Figma designs into scalable code achieving compatibility across 5+ browsers.
- Improved application performance through code splitting, lazy loading, and memoisation reducing load times by 40%.
- Contributed to design system architecture, documenting 30+ reusable components and improving UI consistency across 3+ products.
- Led migration from Gulp/Nunjucks to Astro within a monorepo setup, reducing build times by 50% and project setup time by 70%, consolidating 20+ projects under a unified configuration.
- Debugged and resolved 50+ UI/UX issues, improving responsiveness and raising overall product quality scores by 30%.

Frontend Developer, Airban Limited

March 2023 – May 2023 · Accra, Ghana

- Built responsive, cross-browser UIs in AngularJS with modular, reusable components.
- Implemented Angular form validation to improve data integrity and reduce user input errors.
- Built the company's public facing website.

Project Manager, Haus of Shea

(Aug 2019 – Sept 2022)

- Managed end-to-end project delivery
- Coordinated teams and stakeholders
- Improved efficiency, cost control, and delivery timelines
