

EVERY LEBENE KORTO

User Experience & Frontend Engineer

Frontend Engineer specialising in scalable, high-performance, and user-centric web applications. I am experienced in React ecosystems, design systems, and modern frontend tooling with a strong background in UX engineering and project management which enables effective collaboration across product, design, and engineering teams.

Experience

UX Engineer, Hubtel

June 2023 – Present · Accra, Ghana

- Translate high-fidelity Figma designs into scalable React + TypeScript applications with focus on accessibility (WCAG 2.1) and cross-browser compatibility.
- Improved application performance through code splitting, lazy loading, and memoisation, leading to faster load times and smoother user interactions.
- Contributed to design system architecture, documenting built components and improving consistency across products.
- Leading migration from Gulp/Nunjucks to Astro within a monorepo setup, unifying multiple projects under a shared configuration and improving developer experience and build efficiency.
- Collaborate cross-functionally with product managers, designers, and backend engineers to deliver features in Agile environments.
- Debug and resolve UI/UX issues, improving responsiveness and overall product quality.

Frontend Developer, Airban Limited

March 2023 – May 2023 · Accra, Ghana

- Built responsive, cross-browser UIs in AngularJS with modular, reusable components.
- Implemented Angular form validation to improve data integrity and reduce user input errors.
- Built the company's public facing website

Project Manager, Haus of Shea

(Aug 2019 – Sept 2022)

- Managed end-to-end project delivery
- Coordinated teams and stakeholders
- Improved efficiency, cost control, and delivery timelines
